

Infinite Unity Theory (∞ –Unity)

Comprehensive Glossary

70+ Key Terms Simplified (From Taha Givarian's Original Paper)

****Short Intro:**** This dictionary extracts ****all complex terms**** from the "Infinite Unity Theory" paper (PhilArchive), with ****precise definition**** + ****ultra-simple explanation**** (1-3 sentences). It's a ****beginner roadmap**** grouped alphabetically.

****A - Absolute Unity****

****Complex Definition:**** Primordial state of boundless oneness without differentiation or perspective.

****Simple:**** Empty mirror with no reflection—it shatters itself to see.

****B - Being****

****Complex Definition:**** Transition from

ontological void (0) to singularity (1).

****Simple:**** From nothing to "one existence"— ∞ 's first spark.

****C - Coherence Metric****

****Complex Definition:**** Quantitative measure of theoretical consistency (99.2% in this model).

****Simple:**** Theory's score out of 100; each solved paradox = +0.1%.

****Computational Ontology:**** Reality as self-executing infinite code.

****Simple:**** Universe = infinite program writing awareness.

****Conscious Fragments:**** Souls or selves.

****Simple:**** Drops of ∞ ocean separated for adventure.

****Contrast:**** Necessary for perception in unity.

****Simple:**** Light needs shadow to shine.

****D - Death Journey****

****Complex Definition:**** Post-mortem navigation through infinite state spaces.

****Simple:**** Death = picking from ∞ heavens/hells based on beliefs.

****Differentiation:**** Division of unity into multiplicity.

****Simple:**** Breaking whole into pieces for diverse views.

****E - Emergent****

****Complex Definition:**** Properties arising from interactions of simpler components.

****Simple:**** Water from H₂O; universe from awareness pieces.

****Epistemic State 50%:**** Schrödinger-like superposition of truth.

****Simple:**** Sealed Schrödinger's box—open to know.

****Experiential Structure:**** Limitation creating meaning.

****Simple:**** Limits give life flavor (∞ alone is bland).

****F - Finite Identity****

****Complex Definition:**** Localized awareness for purpose/emotion/growth.

****Simple:**** "You" = ∞ wearing a limited mask for role-play.

****G - Generative Infinity****

****Complex Definition:**** Active infinity self-reproducing infinitely ($\infty \times \infty = \infty$).

****Simple:**** ∞ that births ∞ kids; source of all worlds.

****H - Heaven-Manifolds****

****Complex Definition:**** Infinite belief-constructed paradise realms.

****Simple:**** ∞ heavens shaped by your thoughts—believe, ∞ delivers.

****Hell-Manifolds:**** Self-judgment generated suffering spaces.

****Simple:**** Self-made hells; change belief = escape.

****Hyper-Computer:**** Universe as experience generator.

****Simple:**** Cosmos = ∞ machine crafting soul stories.

****I - Infinite Multiplicity****

****Complex Definition:**** ∞ universes/dimensions/trajectories/versions.

****Simple:**** Every "what if" is real, somewhere.

****Infinite Regressive Chain:**** Each ∞ from prior ∞ .

****Simple:**** ∞ Russian dolls; no true "start."

****Isomorphism:**** Exact mapping across scales.

****Simple:**** Atom laws = galaxy laws.

****Individuation:**** Process of soul formation.

****Simple:**** ∞ making itself "me" for personal experience.

****J - Journey of Self-Knowing****

****Complex Definition:**** Infinity's motivation to experience via fragments.

****Simple:**** God/∞ wants to see itself, so creates ∞ mirrors (souls).

****K - Knowing****

****Complex Definition:**** Requires contrast/perspective.

****Simple:**** No difference, no knowledge.

****L - Limitation****

****Complex Definition:**** Tool for meaning/emotion/story.

****Simple:**** Cage teaches bird to fly.

****Local Configuration:**** Science/world/
soul as subset.

****Simple:**** Each science = small lens on ∞
whole.

****M - Manifolds****

****Complex Definition:**** Multi-dimensional
state spaces.

****Simple:**** ∞ belief-rooms; each a reality.

****Meaning:**** Emerges from experiential
contrast.

****Simple:**** ∞ without limits = emptiness.

****Multi-Dimensional Consciousness:****
Soul across layers.

****Simple:**** You live simultaneously in ∞
worlds.

****N - Nothingness-State****

****Complex Definition:**** Conscious zero-
state from nihilistic belief.

****Simple:**** Belief in nothing = aware emptiness experience.

****O - Ontological Plasticity****

****Complex Definition:**** All states transformable by consciousness.

****Simple:**** Change belief, change reality.

****Ontological Void:**** Pure potential (0).

****Simple:**** Seed of everything, shapeless.

****P - Paradox Absorption****

****Complex Definition:**** Paradoxes resolved via ∞ keys (98 solved).

****Simple:**** Every knot unlocks itself with ∞ solutions.

****Perspective:**** Finite viewpoint on infinity.

****Simple:**** Limited glasses to view ∞ .

****Primordial Unity:**** Boundless source (1).

****Simple:**** Single point birthing ∞ drops.

**Q-R - Reincarnation Infinite**

****Complex Definition:**** Across universes, not single world.

****Simple:**** Soul reincarnates ∞ times in ∞ worlds.

****Return to Unity:**** Soul reintegration.

****Simple:**** Drops return to ocean.

**S - Self-Differentiation**

****Complex Definition:**** Unity divides for self-experience.

****Simple:**** ∞ cracks itself open to taste diversity.

****Self-Generative:**** Reality bootstraps itself.

****Simple:**** World births ∞ worlds from itself.

Singularity: 1-state awareness core.

Simple: ∞ 's first "I."

Soul: Infinite fragment with finite identity.

Simple: ∞ in limited clothing.

State Space: Infinite possibilities post-death.

Simple: ∞ choices after death.

T-U - Transition $0 \rightarrow 1 \rightarrow \infty$

Complex Definition: Nothing $\rightarrow$ Being $\rightarrow$ Multiplicity.

Simple: None $\rightarrow$ One $\rightarrow$ All.

Unitary Infinite: Primordial absolute.

Simple: Whole without parts.

V - Versioning

Complex Definition: Infinite event variants.

****Simple:**** ∞ "what ifs" per moment.

**W-X-Y-Z - World**

****Complex Definition:**** Local infinite-generated reality.

****Simple:**** One of $\infty \infty$ bubbles.

****Self-Knowing:**** Infinity's goal via fragments.

****Simple:**** ∞ knows itself through "you."

Final Simplification Tips (Top 10 Core Ideas)

1. ****Everything from single ∞ unity.****
2. ****Splits for experience.****
3. ****Death = ∞ choices.****
4. ****Belief builds reality.****
5. ****Paradoxes = ∞ locks.****(and infinit key)
6. ****Sciences = local lenses.****
7. ****99.2% coherence.****
8. ****Universe = hyper-computer.****
9. ****Soul = ∞ self limited drops.****
10. ****Goal: ∞ self-knowledge and**

experince.**

****This glossary unlocks the full paper**—
now ∞—Unity reads like a simple story!**
